

TEACHER INFO SHEET

**SCHOOL
TOY
DRIVE**

Thank you for participating in the CTV Toy Mountain School Toy Drive Program!

We are grateful for the support of you and your students in helping CTV and The Salvation Army build the biggest toy mountain for children in need within your community. To inspire and excite your students for the School Toy Drive Program, we have included the following resources:

Student Surprises

Each student will receive fun CTV Toy Mountain branded items to get them excited for the School Toy Drive Program, including:

- Pencil
- Sticker for a water bottle or Chromebook
- Calm Strip

Class Activities

The class will enjoy the shared experience of:

- Kindness notepads for students to write and share words of encouragement and kind thoughts with their peers. The notepads may be best situated on the teacher's desk or in a common area of the classroom.
- Blank Cards for students to decorate and write a kind message in. This can be included in a classroom activity or lesson plan.
- Tracking Chart built right into the activity box! Simply unfold the box to reveal the tracking chart with fillable goals for your class. There will be numerous goal markers along the tracking chart that your class can identify and write in the legend.
- Kindness Climb Cards to help students be mindful of kind and generous actions throughout the School Toy Drive Program and into the new year.

Digital Resources

In addition to the physical items in the box, there are some great digital resources for you to use in support of the School Toy Drive Program including curriculum based class activity suggestions, bulletin board ideas, parent info sheet and an informational video to share with the students.

Questions?

If you have any questions about the items in the student activity box, about the School Toy Drive Program or about CTV Toy Mountain in support of The Salvation Army, please contact on.pr@salvationarmy.ca
